MAHBOOB ALAM

B.TECH CSE STUDENT | WEB DEVELOPER

Email: mahboobalam54283@gmail.com| Phone: +916390803781

Address: Bakhara Khas, Deoria, Uttar Pradesh, India

PROFESSIONAL PROFILE

Motivated third-year B.Tech Computer Science and Engineering (AIML) student at KIPM College of Engineering & Technology, with a strong interest in full-stack web development, user-focused interface design, and practical problem-solving. I enjoy turning ideas into useful digital products and learning by building projects with the MERN stack. My project experience includes AI-assisted PDF question answering, an online course platform, a personal portfolio, and a campus-safety system. I am looking for opportunities to strengthen my development skills, collaborate with a team, and contribute to real-world software projects.

EDUCATION

B.Tech — Computer Science & Engineering (AIML) **2024–2028**
KIPM College of Engineering & Technology, Gorakhpur
Affiliated to AKTU, Lucknow | AKTU College Code: 751

Intermediate (Class XII) **2022–2024**
Sayeed Mir Ibrahim G.I.C., Karjahan, Deoria

High School (Class X) **2020–2022**
Sarswati Vidya Mandir H.S.S., Bakhra, Deoria

TECHNICAL SKILLS

FRONTEND

- HTML5, CSS3, JavaScript
- React.js
- Tailwind CSS

BACKEND & DATABASE

- Node.js, Express.js
- MongoDB
- REST API integration
- MySQL (Basics)

TOOLS & DESIGN

- VS Code, Git & GitHub
- Postman
- Canva
- Photoshop / Illustrator (Basics)

CORE STRENGTHS

- Problem-solving mindset and willingness to learn new tools and technologies.
- Interest in clean, responsive UI and practical user experience.
- Able to break project requirements into smaller tasks and improve features iteratively.
- Collaborative approach to learning, project work, and feedback.

PROJECTS & DEVELOPMENT EXPERIENCE

PROJECTS

PDF Reader | May 2026

Developed a web-based PDF question-answering application that lets users upload a PDF and ask questions about its content. The project combines a React interface with a backend API and PDF text extraction, with AI-assisted answer generation.

- PDF upload and document text extraction
- Question-and-answer workflow with a simple user interface

Safe Campus | Aug 2026

Built a campus-safety web application concept designed to help students report incidents and allow administrators to monitor and manage alerts. The system includes role-based student/admin flows and status tracking.

- Emergency alert creation with alert type, description, and location details
- Admin dashboard to review alerts and update their status
- Contributed to frontend UI, alert flow, and location-tracking features

Online Course Hub | June 2026

Created a full-stack learning platform where users can browse courses, view course details, register or log in, and access a learning dashboard. The project focuses on a structured course-browsing experience and authenticated user flows.

- Course listing and course-details pages
- Login/register screens and dashboard navigation

My Portfolio | Jan 2025 (mahboobalam.me)

Designed a personal portfolio website to present technical skills, selected projects, education, and professional interests in one place.

- Organized project information into a clear, responsive layout
- Focused on readable content and consistent visual design

CERTIFICATES & TRAINING

MERN STACK — KIPM Innovators Foundation
MERN STACK Advanced — KIPM Innovators Foundation
Game Development — Digi Coders
Data Analytics Basics — Skill Up

INTERESTS

- Web Development
- UI/UX & Graphic Design
- Creative Digital Projects
- Learning New Technologies
- Problem Solving
- Building Useful Applications

PERSONAL DETAILS

Father's Name: Muhammad Rafik
Mother's Name: Alamara
Date of Birth: 12/07/2005
Nationality: Indian
Address: Bakhara Khas, Deoria, Uttar Pradesh

Languages

- Hindi
- English

Career Objective

To grow as a software developer by applying my web-development knowledge, learning from experienced teams, and building reliable, user-friendly applications.
